## STELLAR

The Stellar, with its striking all-black exterior, is a true sports car on the water. Sleek, powerful, and undeniably bold, this yacht turns heads wherever it goes, making an unforgettable impression at every marina.

Designed for those who crave both speed and luxury, the Stellar 108 offers a dynamic experience that feels like driving a high-performance sports car—only on the open sea.

The yacht's aggressive black profile enhances its sense of power, while the retractable roof and large windows flood the interior with natural light, blending the excitement of the outdoors with the comfort of the indoors. The spacious, open-plan saloon, coupled with the expansive aft deck, creates the perfect setting for both high-energy gatherings and laid-back relaxation. The large swim platform and built-in garage make it ideal for thrill-seekers who want quick access to water sports or adventurous coastal explorations.

With its top-tier performance, the Stellar is built for those who want to combine speed, style, and comfort. Its sleek black exterior, reminiscent of a luxury sports car, offers not just a yacht but an exhilarating, head-turning experience on the water—ideal for those seeking freedom with an edge of sophistication.
