ALERA

The Alera yacht is designed to make the most of every inch, offering both comfort and practicality in a sleek, stylish package. One of the standout features is the spacious flybridge, a versatile area perfect for sunbathing, dining, or simply relaxing as you cruise. With flexible freestanding furniture, this space easily adapts to your needs, making it the ideal spot for hosting guests or enjoying a quiet moment in the sun.

Inside, the yacht feels open and airy, thanks to its wide beam and large windows that flood the main saloon with natural light. The open layout enhances the feeling of space, making the interior feel larger and more inviting than most yachts of its size.

The Alera features four well-appointed cabins, all designed with comfort and practicality in mind. The full-beam master suite offers ample space, complete with a seating area and en-suite bathroom, providing a private retreat. The other guest cabins also feature en-suite facilities, ensuring every guest enjoys privacy and comfort without feeling crowded.

For water enthusiasts, the aft deck and swim platform offer easy access to the ocean, making it convenient for swimming or enjoying water sports. With its combination of functional design, stylish interiors, and thoughtful layout, the Ferretti 80 is the perfect choice for those who value both comfort and performance on the water.
