LIMENI

The Limeni combines modern design with spaciousness, making it the perfect yacht for families and multi-generational groups. Its vertical structure and broader beam create more room across multiple levels, enhancing both the interior and flybridge areas. The added height increases the sense of openness, particularly in the saloon, cabins, and flybridge, offering a light and airy atmosphere. Large windows bring in plenty of natural light, providing panoramic views and a feeling of expansiveness throughout the living areas. Taller superstructure also improves headroom, making the cabins feel larger and more comfortable.

Ideal for family adventures, the Limeni comfortably accommodates parents, children, and extended family across four spacious cabins. Its open-plan saloon and dining areas offer plenty of room for gatherings. The yacht's dual-mode hull ensures a smooth cruising experience, minimizing motion discomfort, making it perfect for both peaceful retreats and kid-friendly escapades. Family-friendly features include a large flybridge and foredeck for sunbathing or playtime, as well as multiple social spaces where everyone can enjoy meals, games, or simply relax together. Activities like swimming from the bathing platform or having sunset dinners on the flybridge make for cherished moments on the water.
