Sunseeker 100

The yacht stands out for its seamless connection between interior and exterior spaces, creating a natural flow that enhances the yachting experience. Its floor-to-ceiling windows allow abundant natural light to flood the saloon, giving the sensation of being outdoors while maintaining the comfort of indoor spaces. This feature not only makes the yacht feel more spacious but also provides spectacular panoramic views, making every room feel directly connected to the sea.

The flybridge is a key highlight, offering unobstructed walkaround access from the foredeck to the stern. This large, open space is perfect for entertaining, whether you're lounging or enjoying a meal by the bar.

One particularly striking feature is the retractable roof on the upper deck, which can open to reveal the sky, allowing for a more open-air experience. The owner's suite, located forward, benefits from huge windows and direct access to a private terrace—ideal for quiet moments at sea. The design prioritizes space and functionality, with thoughtful touches like the X-TEND sunbeds that transform the beach club into a social hub, complete with easy access to the water toys and swim platform. With its practical layout, large windows, and smart use of space, the yacht is perfect for those who value a true connection to the ocean while enjoying the flexibility to host events or relax in privacy.
